## Safety Notice Items

Incorrect usage will cause fire or electric shock. To prevent this, please do as required when you are installing, using and cleaning this machine. To insure your safety and extend the life-span of LCD-TV, please read the following items carefully before using:

- Please read and understand all the instructions before operation;
- Please keep the book for later use;
- Please comply with the warning instructions on the machine and in this book strictly;
- Please comply with the instructions provided;
- Please do not use additional devices that are not recommended by manufacturer;
- Before operation, please make sure that the operating voltage of your unit is normal;
- Do not place the unit on unstable, dusty and humid places;
- Never put the unit in direct sunlight or near heat sources;
- Allow enough space for proper ventilation;
- Please keep water away from the LCD-TV . If water comes in contact with the LCD-TV, disconnect the power cord from the power source, then wipe the set with a dry soft cloth;
- Do not remove the back cover. If services were need, please refer to qualified Personnel

# Front Panel Controls

## Control Panel Function

1. Power supply switch
2. TV/AV Select the input signals: **PC/COMPONENT/HDMI/TV/SCART/ SVIDEO**
3. MENU Press to select the main menu
4. VOL- Volume down / Left orientation to adjust the item in the OSD  
VOL+ Volume up / Right orientation to adjust the item/Press to enter
5. CH- TV channel down / to select the item in the menu  
CH+ TV channel up / to select the item in the menu
6. Power indicator  
Illuminates red in standby mode, illuminates green when the display is turned on
7. Remote Sensor Receiving remote control sends the infrared remote signal.

# Connection Options

## COMPONENT Input

Connect a component video/audio device to these jacks

## COMPONENT/ SVIDEO /VGA Audio Input

Connect the PC output connector from a PC to the audio input port

## SCART

Connect to the DVD/VCR/broadcasting receiver or other equipment

## HDMI

Connect to HDMI output of other equipment

## Earphone port

## Antenna Input

Connect cable or antenna signals to the TV, either directly or through your cable box.

## S-Video Input

Connect S-Video out from an S-Video device to the jacks.

## PC Input

Connect to the VGA 15PIN analog output connector of the PC display card for PC display purpose

# Remote Control Key Functions

When using the remote control, aim it towards the remote sensor on the TV

## Buttons on the remote control

- 4 TV channel number select
- 5 Set time to change the TV into the standby status after a period of preset time.
- 6 NICAM/A2 Stereo select
- 7 EXIT
- 8 Quick TV channel switch(return to the last channel)
- 9 Volume down/up Left/right orientation to adjust the item in the OSD
- 10 TV channel up/down or select the item of the menu
- 11 Select **PC/COMPONENT/HDMI/TV/SCART/ SVIDEO**
- 12 Select picture mode
- 13 PC system select
- 14 Select sound mode
- 15-18 Correspond to the differently colored subjects
- 19 Switch to the Teletext with text mode/turn off Teletext and switch to TV mode
- 20 Hold on or off for current page display
- 21 Switch to the Teletext with mix mode
- 22 Request index page
- 23 Change display size
- 24 Sub coded page access
- 25 While in normal TV mode only, pressing the button **TIME** will display the teletext time in the top right corner for a few seconds.(only available in teletext mode)
- 26 Reveal or hidden the hidden words
- 27 Press to select the main menu
- 28 Auto adjust (PC mode)

# Remote Control

## Installing Batteries

1. Slide open the cover of the battery compartment on the back of the remote control.
2. Load two 5# alkaline batteries in the compartment. (plus and minus poles to respective mark)
3. Replace the cover of the battery compartment.

## Precautions

Make sure that there is no obstacle between the remote controller and television set.

Keep the remote controller away from heat source or humid area to ensure effective performance of the remote controller.

As strong light may interfere the signals, change your position to operate the remote controller if the television cannot be turned on or off as you expect.

Make sure that two 5# 1.5V alkaline batteries are loaded. The batteries must be of the same type. The batteries must be located properly. The batteries are not rechargeable.

# Connection Instructions

## Grounding

Ensure that you connect the grounding / earth wire to prevent possible electric shock. If grounding methods are not possible, have a qualified electrician install a separate circuit breaker. Do not try to ground the unit by connecting it to telephone wires, lightening rods, or gas pipes.

## External Equipment Connections

### Antenna Connection

- Antenna or Cable Service with a Cable Box Connections
- For optimum picture quality, adjust antenna direction if needed.

- To improve picture quality in a poor signal area, purchase and install a signal amplifier.
- If the antenna needs to be split for two TV's, install a "2-Way Signal Splitter" in the connections.
- If the antenna is not installed properly, contact your dealer for assistance.

**Note: All cables shown are just for example.**

# Connection Instructions

## VGA Input

You can use your LCD-TV as a monitor for your personal computer using a VGA cable (not supplied).

### Connection and use steps:

1. Read the user guide supplied with your computer and ensure that it has a VGA connector;
2. Make sure that the power of the LCD-TV and the PC are off;
3. Connect a D-type 15-pin VGA interface cable (not supplied) to the VGA video interface connector on the PC. Then connect the other end to the PC video interface connector on the back of the LCD-TV. Tighten the screws on the VGA connectors once they are firmly connected;
4. Turn on the power of the LCD-TV first, and then turn on the power of the PC;
5. Press the TV/AV button to set the video input mode of the LCD-TV to PC-RGB;
6. Check the image on your TV. There may be noise associated with the resolution, vertical pattern, contrast or brightness in PC mode. If noise is present, change the PC mode to another resolution, change the refresh rate to another rate or adjust the brightness and contrast on the menu until the picture is clear. If the refresh rate of the PC graphic card can not be changed, change the PC graphic card or consult the manufacturer of the PC graphic card.

## Resolution

Mode	Resolution	Line frequency (Khz)	Frame frequency (Hz)
VGA	640*480	31.5KHz	60Hz
SVGA	800*600	37.9KHz	60Hz
XGA	1024*768	48.4KHz	60Hz

Note: All above listed are subject to VESA Criteria.

## YPbPr Input

### How to connect

Connect the DVD video outputs (Y, PB, PR) to the COMPONENT(Y, Pb, Pr) IN jacks on the TV and connect the DVD audio outputs to the AUDIO IN jacks on the TV, as shown in the figure.

**NOTE:** If your DVD player does not have component video output, use S-Video.

### How to use

1. Turn on the DVD player, insert a DVD.
2. Use the **TV/AV** button on the remote control to select

# Connection Instructions

COMPONENT (If connected to SVIDEO,select the SV external input source.)

3. Refer to the DVD player's manual for operating instructions.

## Component Input ports

To get better picture quality, connect a DVD player to the component input ports as shown below.

Component ports on the TV	Y	Pb	Pr
---------------------------	---	----	----

Video output ports on DVD player	Y	Pb	Pr
	Y	B-Y	R-Y
	Y	Cb	Cr
	Y	Pb	Pr

## S-VIDEO Input

- To avoid picture noise (interference), leave an adequate distance between the VCR and TV

### Connection and use steps:

1. Read the user guide supplied with your AV devices and ensure that it has S-Video connectors;
2. Make sure that the power of the LCD-TV and the AV device are off;

### Connection Option 1

Set VCR output switch to 3 or 4 and then tune TV to the same channel number.

### Connection Option 2

1. Connect the audio and Svideo cables from the VCR's output jacks to the TV input jacks, as shown in the figure.
2. Insert a video tape into the VCR and press PLAY on the VCR. (Refer to the VCR owner's manual.)
3. Turn on the power of the LCD-TV first ; and then turn on the power of the AV device;
4. Press the TV/AV button to set the video input mode of the LCD-TV to SVIDEO mode .

# Connection Instructions

## SCART Input

1. Link the scart terminal of some other equipment, such as DVD, to the TV SCART input terminal of the television.
2. Press TV/AV to select SCART mode.
3. Press Play button on external equipment for program play.

## HDMI Input

### How to connect

Connect the cables from the external equipment's output jacks to the TV input jacks, as shown in the figure.

### How to use

1. Select the input source by using the **TV/AV** button on the remote control.
2. Operate the corresponding external equipment.  
Refer to external equipment operating guide.

Note: The audio cable included with the TV should be used when connected with PC/COMPONENT/S-VIDEO.

One side connected with the AUDIO IN terminal on the TV and the other side with right and left track connected with the corresponding terminals of other equipment.

# Basic Operating Instructions

## Turn on the LCD-TV

Switch on the power button on the back of the set and the TV will be in standby mode. When the **POWER** button on the remote control is pressed and the LCD-TV is turned on, the indicator light on the front of the LCD-TV changes from red to green. When the LCD-TV is turned off using the **POWER** button, the LCD-TV will go into standby mode and the indicator light turns red.

### Note:

The display of the input mode will disappear in about 8 seconds.

You can also turn on the TV from standby mode by pressing the digits(1-9) or P+/- .

Switch Among Different Inputs: PC/COMPONENT/HDMI/TV/SCART/SVIDEO

Each time you press the **TV/AV** button, PC, COMPONENT, HDMI, TV, SCART, SVIDEO, will appear on the screen in the order.

### Note:

The display of the input mode will disappear in about 8 seconds.

The display will appear on the screen when the TV is turned on the first time:  
(Different displays for different countries, please see the real set)

AUTO SEARCH
UNITED KINGDOM
NO YES

or

AUTO SEARCH		
OTHER		
NO	FRANCE	YES

Press **V+/-** to adjust among FRANCE, UNITED KINGDOM and OTHER just according to the country you are in, **P+/-** to select the option and **MENU** to confirm.

## Audio Control

1. Press the **V+** button to increase the volume. A number will appear on screen indicating the volume level.
2. Press the **V-** button to decrease the volume. A number will appear on screen indicating the volume level.

## Mute

1. Press the **MUTE** button to mute the sound temporarily. A mute icon appears on the screen.
2. Press the **MUTE** button again or **V+/-** to restore the sound. The mute icon disappears.

# Basic Operating Instructions

## Select the TV Channel You Want

You can use the number keys on the remote control to directly select TV channels.

The LCD-TV can store up to 100 channels , and you can press the keys on the remote control or on the panel to make a selection.

1.Press the relevant key on the remote control if you want to choose any channel from 0 to 9. (for example: if you want to choose channel 8, just press the key number 0 and 8.)

**Note: You must press 0 first and then the other numbers from 0 to 9 if you want To choose channels from 0 to 9)**

2.If you want to choose a channel bigger than 9, please enter the two digits of the channel number you want to watch within 3 seconds. ( for example: select channel 16)

## Picture Mode

Press PSM button on the remote control for menu display . For desired mode as follows:

These four buttons correspond to the differently colored subjects .

## **HOLD Button**

Press HOLD button to remain the Teletext page when viewing multi-page information .

## **INDEX Button**

Press INDEX button to return to the main index page .

Depending on the way information is transmitted , this may have to be pressed more than once to return to the main index page .

# TELETEXT

## SUBCODE Button

When Teletext information exceeds more than one page , it may take some time for the automatic changing of the sub pages to reach the sub page you require . It is possible to enter your required sub page and continue watching the normal programme until the correct sub page is found .

Select the required page number using buttons 0-9 .

If the top of the page indicates that sub pages are being transmitted yet the page does not change . Then the number at the top of the page is there to indicated that the broadcaster has updated the page' s contents , there are no sub pages . Press SUBCODE button , page number/--- will be displayed at the bottom right of the screen .

Enter desired sub page number before the page number/--- disappears . To select page 6 enter 0,0,0 and 6 .

## TEXT Button

Press TEXT to enter Teletext mode and only the text page can be visible .

## MIX Button

Press MIX button to enter Teletext mode and both the TV picture and text page can be visible .

## **TIME**

While in normal TV mode only, pressing the button **TIME** will display the teletext time in the top right corner for a few seconds .

**Note:** The teletext buttons could be working even if there is no teletext signal, but there is no teletext display.

# Troubleshooting Guide

- To assist in location possible faults use help guide below.

## Troubleshooting

No picture, no sound	Verify if the television is properly plugged. Verify if the television is properly supplied power. Verify if electricity is available.
Blank screen	Verify if correct signals are input. Press TV/AV button to change signal input to TV input. Restart the television if power supply is interrupted.
No sound	Press MUTE button and verify if Mute mode is set. Switch to other channel and verify if the same problem happens. Press VOL+ button to see if the problem can be solved.
Poor sound	Verify if sound system is correct. Refer to some chapter for adjust.
No picture in some channel	Verify if correct channel is selected. Adjust the antenna. Make adjustments by FINE TUNE and MANUAL SEARCH.
No color for some channel program (black and white)	Verify if the same problem exists in other channels. Check out of picture and sound systems. Refer to relative instructions in the Manual for color adjust.
Spots with some or all pictures	Verify if the antenna is correctly connected. Verify if the antenna is in good condition. Make fine adjustment of channel.
Television out of control	Disconnect the television from power supply and, 10 seconds later, connect the television to the power supply. If the problem still exists, contact authorized after-sales service for technical assistance.

### Note:

- 1.If the fault can not be repaired using the above guide consult with your local authorized service center.
- 2.The TV set must only be repaired by a qualified registered service person. Never attempt to remove the back cover as the TV set has dangerous voltages inside that may cause a fatality or fire.
